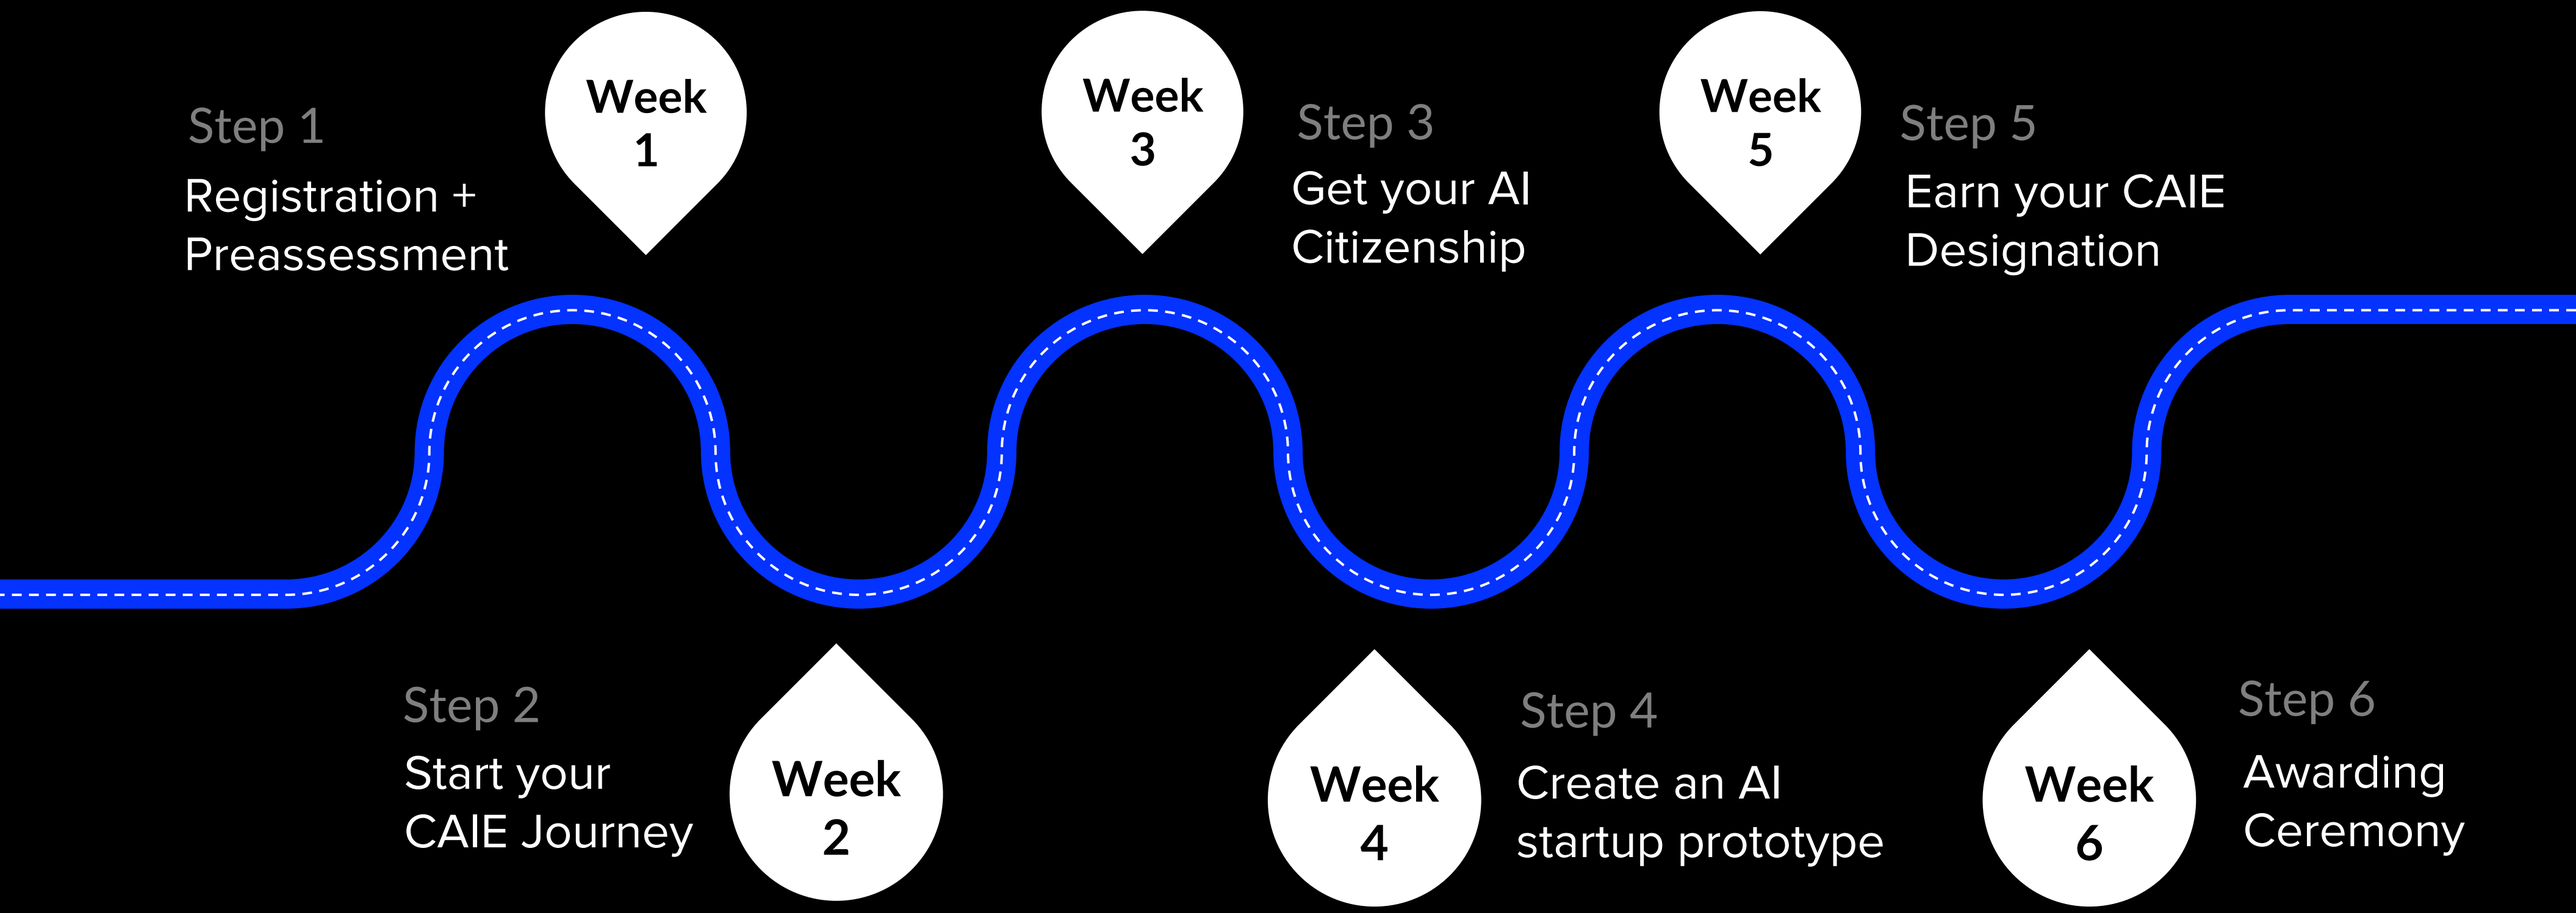
- Career profile

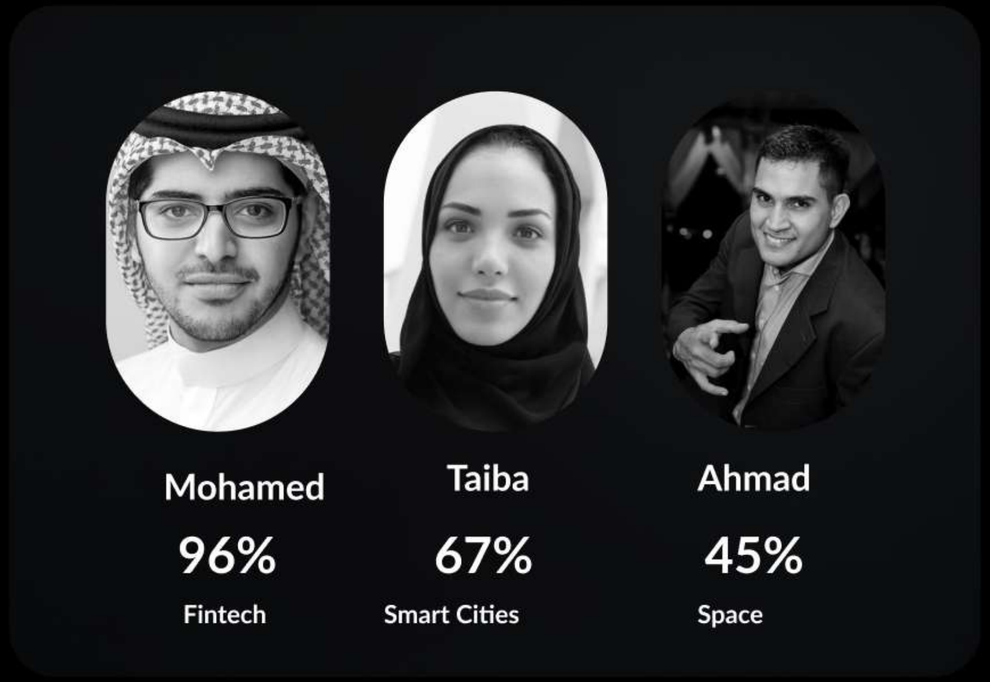
3. Journey & Resources

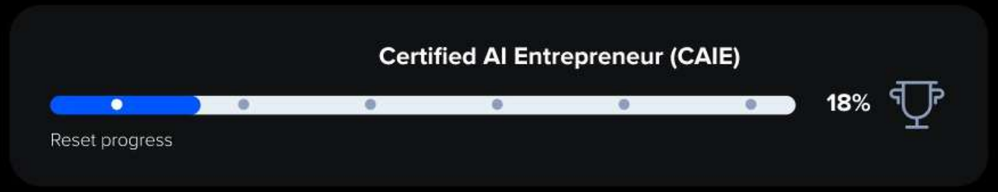
AIQOM®

Program Journey



AIQOM®





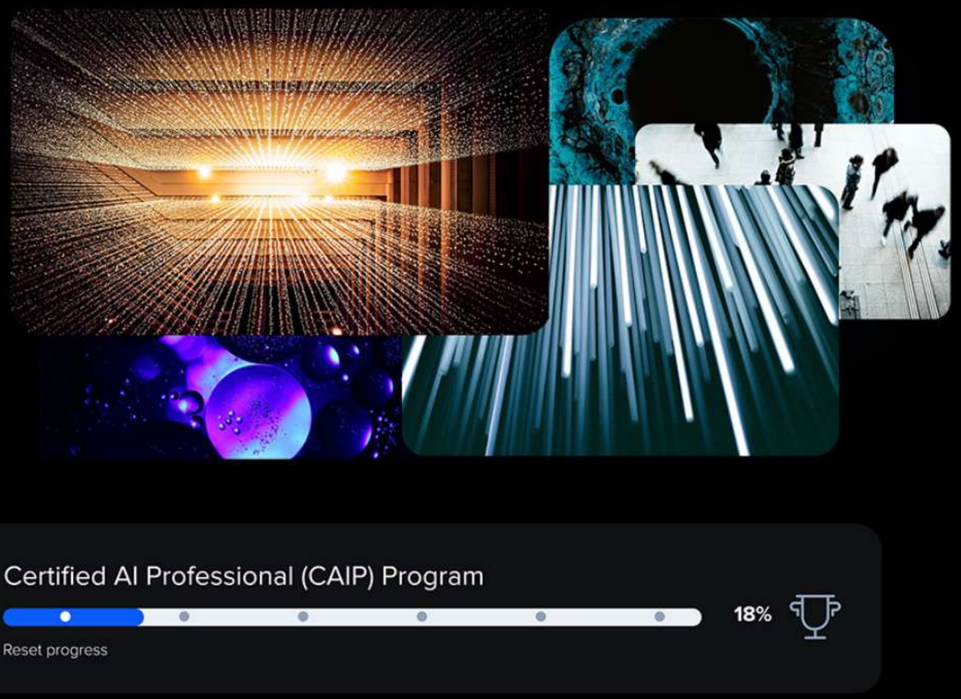
Step 1

AI Entrepreneurship Skill Pre-assessment

Participants start with a pre-assessment to:

- Measure AI and entrepreneurship knowledge level
- Assess career objectives

Results help to personalize the program experience and chart a custom-made future learning path



Step 2

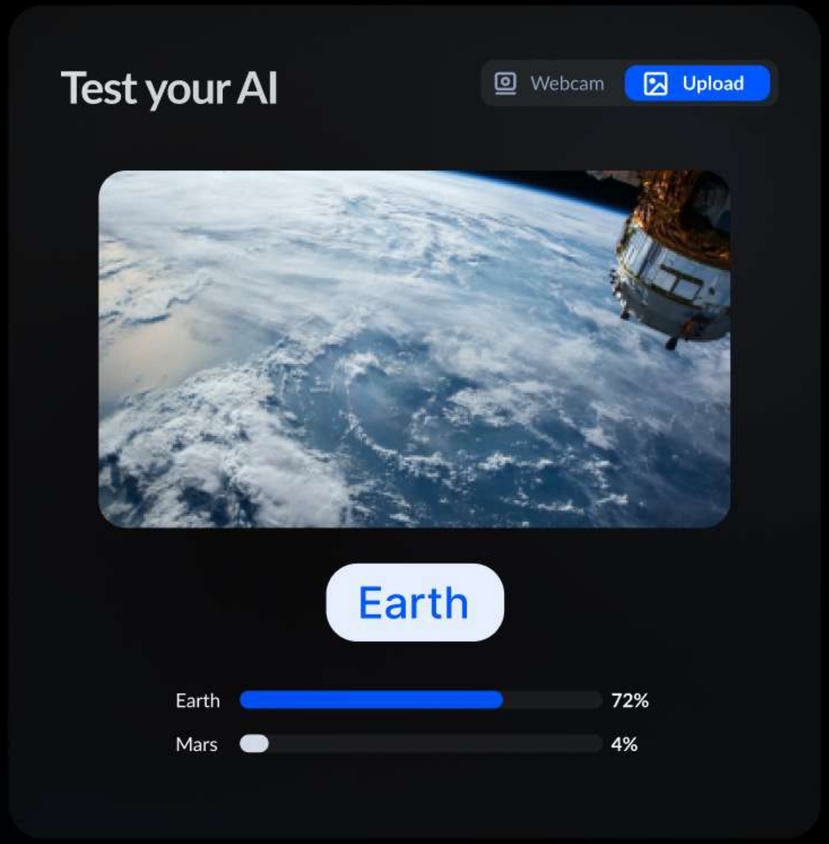
Starting the Program Journey

- Series of interactive and live online workshops and training sessions with world-class instructors
- Participants will be divided in teams, and each team will work on their real-life AI startup project that solves a real-life problem

Step 3

Becoming an AI Citizen™

- Participants will start their CAIE journey by taking the AI Citizenship program to understand the core AI concepts
- Those who passes the AI citizenship test will become Verified AI Citizens, and get their AI Citizen cards



Step 4

Creating AI Startup prototypes with the AI Lab ™

- Participants can unlock rich, growing collection of powerful AI and machine learning models that can solve problems and turn ideas into real innovations and startups.
- The Lab will enable Participants to create rapid AI startup prototypes during the program.

Step 5

Becoming a Certified AI Entrepreneur (CAIE)™

Successful completion of this certification program will enable you to get the following:

- Become a Certified AI Entrepreneur (CAIE)
- Go-to-market strategy + rapid AI prototype
- Access to a global network of AI citizens
- Opportunity to secure seed funding from investors

Step 6

Winning Awards & Ceremony

Top 3 winning teams will get winning prizes that include but not limited to:

- Awards and prizes
- Mentorship and Product development support
- Patents and intellectual properties
- Opportunity to meet with VCs and angel investors
- 1-year complementary AI membership in AIQOM
